Getting Started with Avaana

Introduction to Your Business Dashboard and Avaana Calendar

The Business Dashboard

Sign In

You can sign In to your account by clicking **Sign In** which appears in the top right hand corner of the Platform's header. Login using your email and password (as set by you the first time you logged in).

Once logged in, click **Business Dashboard** to be redirected to the landing page of your Business Dashboard.

Edit Account Details

By clicking **Edit Account Details** on the bottom left panel of the landing page of your Business Dashboard, you will be able to edit details of your account with Avaana and also the information displayed on your Business Dashboard.

Upon clicking **Edit Account Details**, click **Edit** to the right of **Section 1** to **Section 4** to amend the relevant information about your business contained in each of those Sections. Remember to click **Save & Continue** at the bottom of a Section to save changes made to that Section. Avaana reserves the right to make any additional changes to ensure your amendments comply with our Provider Terms and Conditions.

Your Calendars

On the top menu bar of the Business Dashboard, you should be able to view a separate calendar for each of your Practitioners. You should also have an "All Practitioners" calendar which provides a combined calendar for all of your practitioners. If you operate from multiple locations, you should be able to view a calendar for each of your practitioners at each location.

Cliniko

For Cliniko users who have provided their Cliniko API key to Avaana, your Avaana Calendar should be set up to automatically sync your time & date availability with your Cliniko calendar. One thing to keep in mind is that this is a one-way sync, so if you make updates to your Cliniko schedule, those updates will be pushed to Avaana Calendar. However, if you make updates to your schedule on Avaana Calendar or receive an appointment booking through Avaana, they won't be pushed back to Cliniko (in the case of an Appointment booked through Avaana, you will be notified by email).

Using Avaana Calendar

New Appointments and updating appointments (booked outside of Avaana)

To create a New Appointment in your Avaana Calendar, click an available slot in your calendar or click **New Appointment** in the top right hand corner of your calendar.

A New Appointment popup will appear, which will prompt you to include the Service Name, the Practitioner performing the Service, the Start Time, the End Time and Client Name in respect of the appointment. All other details in the New Appointment pop-up are optional.

If the New Appointment is a **Repeat Appointment**, select Repeat Appointment and follow the prompts.

To **update** any of the details associated with an appointment created in your calendar, click the green appointment you wish to update and update the details accordingly.

New Appointments booked through Avaana will automatically create an appointment in your Avaana Calendar. In addition, you will receive an email notifying you of the New Appointment booked through Avaana.

You should not update, reschedule or cancel any appointment booked through Avaana. Rescheduling and cancellation of appointments booked through Avaana will be managed by Avaana on your behalf. See Page 4 for further details.

New Appointments (booked through Avaana)

Block Time

To Block Time in your Avaana Calendar, click **Block Time** in the top right hand corner of your calendar. As the name suggests, Clients will not be able to book appointment slots through Avaana which you have marked as Blocked Time in your Avaana Calendar.

Block Time is an easy way to manage your availability to accept appointments on Avaana, especially if you are not planning on using Avaana Calendar as your primary appointment calendar.

Make sure you block out any time in your calendar reserved for group classes or group sessions.

3. What you owe Avaana in respect of Fees and Third Party Fees in the period since the last Invoice Statement, such amounts to be deducted from any amount owed to you; and

Rescheduling by Providers

You may only reschedule an Appointment with a Client in exceptional circumstances (such circumstances to be reasonably determined by Avaana).
